

An efficient way to keep your business organized.

What is the Box Program?

The **Box Program** enables us to stock large quantities of corrugated boxes in our warehouse, allowing for shorter lead times on in-stock boxes. In the past, we stocked about 15 sizes – we are now stocking dozens of corrugated boxes. This means shorter lead times and expedited shipping on all in-stock boxes.

Box Program Details

We are excited to stock more and give our clients faster delivery. The Box Program also brings some changes to our order policies. Please note the following program details:

- Expect reduced lead times on all in-stock boxes
- Available in bundle increments only
- Orders of any non-program boxes must be made in “Bale” quantities only. *
- Custom box orders produced and provided outside the Box Program come with an industry standard +/- 20% based on size and waste factors. *

Every business is different. We work with you to find the most efficient and cost-effective packaging unique to yours.

DISCLAIMER: 1) 200#/32ECT, 275#/44ECT, 275#/DW/48ECT are examples of accepted standard industry corrugated verbiage that define comparable Board Grades. All boxes are either Edge Crush Test or Mullen Burst Test, unless specifically stated otherwise. 2) Any boxes ordered outside of this stock box program can only be done so in "Bale" quantities. Contact United Packaging Sales Consultant to inquire on bale quantities for specific boxes not in this program 3) Stock boxes MUST be ordered in bundle increments. 4) All 'custom' boxes produced and provided outside of our stock box program, come with an industry standard +/- 20% quantity based on size and waste factors in converting corrugated sheets into boxes. Clients of United Packaging acknowledge acceptance of any overage/underage on custom box orders.
